## **Aqualand extends partnership with Western Sydney Wanderers**

The Western Sydney Wanderers are proud to announce that Aqualand have become a senior partner for the next two seasons.

Since coming on board with the Wanderers in 2015, Aqualand will take up a placement on the right back-of-shorts of the club's Hyundai A-League kit and will first appear during the Arsenal match on 15 July 2017.

Aqualand is a property development and investment company that aims to go beyond the expected.

Established in March 2014, Aqualand has built a reputation as a producer of high quality residences and currently has over 17 properties in its portfolio.

As a family business, they are committed to intelligent design, an uncompromising approach to quality and continually seeking a better way to deliver to their customers.

Western Sydney Wanderers CEO, John Tsatsimas, says that the club is very happy to continue to grow with their partnership with Aqualand.

"Our relationship with Aqualand is maturing and we are very excited to welcome them as a senior partner," said Tsatsimas.

"We're looking forward to continuing to work with Aqualand and elevate their presence at all Wanderers matches and thank them for their ongoing support and commitment to our club."

Managing Director of Aqualand, Jin Lin, says that Aqualand are looking forward to continuing their partnership and looking forward to being part of the club's future.

"It's a great privilege to partner with one of Australia's most iconic sports teams in the Western Sydney Wanderers for another two Hyundai A-League seasons and to also see the club take on an English Premier League opponent for the first time in history this weekend," said Lin.

"The drive, determination and passion shown by everyone involved at the Western Sydney Wanderers is shared with our team at Aqualand and we're very excited to be part of the club's future, both on and off the pitch."
